LED OYSTER RANGE

Colour Flexibility - Choose from Daylight 5700K, Cool White 4000K or Warm White 3000K at the time of installation with the Tri-Colour switch. Choose the wall switch to enable colour change in an instant. The sensor version reacts to both movement and daylight.

TRI-COLOUR SWITCH
This feature enables you to set the light colour on installation from the back of the fitting allowing you the flexibility to choose from Daylight 5700K, Cool White 4000K or Warm White 3000K.

TRI-COLOUR WALL SWITCH
The LED Wall Switch allows you to choose the light colour with the flick of a switch on the wall enabling instant colour change at any time.

OYSTER LIGHT FITTING WITH SENSOR
The LED sensor version recognises daylight and senses movement when dark. The sensor version is available in 4000K only and is not dimmable.
